

A Comprehensive SSI Reduction Program

PROGRAM OVERVIEW

Dedicated to improving hospital and patient outcomes, Applied is committed to being a part of the overall solution to reduce surgical site infection (SSI) through research, education and awareness. Accordingly, Applied partners with hospitals to assess current practices, improve SSI tracking processes, implement a customized SSI protocol, and reduce infection rates. Applied's Guidance for SSI Reduction and Infection Prevention (GRIP) program provides a comprehensive platform to assist hospitals in reducing SSI rates through clinically proven methods. Throughout the duration of the GRIP program, Applied will support the SSI reduction initiative by offering on-site assistance, coordinating various educational and training activities, and streamlining protocol practices.

TEAM

- Select internal Surgeon Champion and Liaison to drive the SSI reduction initiatives
- Develop CORE and SUPPORT teams to execute program efforts
- Motivate hospital staff to prioritize SSI reduction practices and optimize patient safety

ASSESSMENT

- Review current SSI events for targeted procedure
- Complete internal audit to assess effectiveness of current SSI protocol and establish performance baseline
- Create calendar of events to outline major program milestones and drive completion dates
- Determine a measurable objective to validate the successful integration of an SSI reduction protocol

IMPLEMENTATION & SURVEILLANCE

- Kick-off implementation of SSI reduction protocol
- Collect, analyze and interpret data results to ensure compliance and effectivity
- Demonstrate measurable improvement through regular review of protocol implementation
- Following a successful implementation, the hospital can transfer its program successes to other high impact procedures to reduce SSI

EDUCATION

- Provide informational materials to educate hospital staff and patients
- Supply program tools to optimize improvement processes
- Deliver in-services to educate GRIP team and hospital staff on SSI reduction practices

Applied
Medical

Applied Medical is dedicated to providing innovative products that improve patient outcomes and enable the advancement of minimally invasive surgery. As a new generation medical device company, we are equally committed to improving the affordability and accessibility of high-quality healthcare. We are proud to have a significant and sustainable impact on healthcare by delivering technologies that enhance clinical care and satisfy the pressing economic needs of our customers.
